

WELCOME TO

"One Health 2022 # 5th MedPalynoS and Aerobiologia 4.0"

Joint-Congress

13th-15th SEPTEMBER 2022
5th MEDPALYNOS SYMPOSIUM
Scientific Responsible:
Prof.ssa A.M. Mercuri
Prof.ssa E. Tedeschini

15th-18th SEPTEMBER 2022
16th AIA CONGRESS
ITALIAN SOCIETY OF AEROBIOLOGY
ENVIRONMENT AND MEDICINE
"AEROBIOLOGIA 4.0"
Scientific Responsible:
Prof.ssa E. Tedeschini

16th-18th SEPTEMBER 2022
9th IIAA&COPD FORUM
INTERNAL MEDICINE
ALLERGY ASTHMA & COPD
FORUM
Scientific Responsible:
Prof. V. Patella

15th-18th SEPTEMBER 2022
**BASIC COURSE
AND UPDATE ON
AEROBIOLOGICAL
MONITORING**
Scientific Responsible:
Prof.ssa E. Tedeschini
Prof. A. Travaglini

ONE HEALTH 2022
PAESTUM

September 13-18, 2022 *PAESTUM*(Italy)

Organizer:

AIA (Italian Society of Aerobiology Environment and Medicine)

Presidents of the Congress

Emma Tedeschini
Vincenzo Patella

Steering Committee

Anna Maria Mercuri
Aurélie Penaud
Pilar S. Testillano

The congress week starts with the 5th MedPalynoS symposium and will continue with the 16th AIA (Italian Society of Aerobiology, Environment and Medicine) Congress. Focus of the event activities is to recognize that the human health is linked to plants, animals and environmental health.

This Joint Congress will be the occasion for a complete excursus on Palynology which gradually more converges in the definition of ecosystem science and paradigm of the "**One Health**" concept.

Therefore, the most current studies on the Morphology, Biology, Physiology and Ecology of pollen will be presented in the sessions of:

*Paleopalynology; Archaeopalynology; Melissopalynology; Pollen morphology and Plant phylogeny; Male reproductive performance, Environmental health and Biodiversity; Aeropalynology and climate change, and **Aerobiology 4.0**.* This final represents the "box of innovations" where will be presented new monitoring and prevention protocols from respiratory diseases of humans and pets, new technologies, precision medicine and telemedicine.

Other topics of great relevance and interest will be *Forensic Palynology* and, could not miss the *Aerobiology in the Conservation of cultural heritage*.

Particular attention will be paid to young researchers with training courses, also online, that will be dedicated to diagnostic, clinical and environmental innovations and will place in the space dedicated to 9th IAAC Forum (Internal Medicine, Clinical Immunology, Asthma and COPD) and in Update Course on Aerobiological Monitoring.

Do not miss the "Art and Science" exhibition which will be open for the entire congress period.

Scientific Committee

Augusto Arsieni
Davide Attolini
M. Angiola Crivellaro
Concepción De Linares
Alessandro Di Menno Di Bucchianico
Assunta Florenzano
Alessandro Giordano
Amelia V. González Porto
José Antonio López-Saez
Sante Maiellaro
Alessia Masi
Yannick Miras
Francesco Perna
Antonio Picornell
Laura Sadori
Nicola Scichilone
Damaris Selle
Alessandro Travaglini
M. Teresa Ventura
Massimo Zerani

Local Organizing Committee

Ernestina Bosco
M. Antonia Brighetti
Anna Ferrara
Giovanni Florio
Ada Giuliano
